## **SWITCHGEAR POWER SYSTEMS**

Switchgear Power Systems has extensive experience designing, engineering, and manufacturing highly custom electrical power distribution equipment for the global electrical marketplace.. [Covering the New York and New Jersey Area]

### **Products:**

- E-House
- Metal-Clad Switchgear
- Metal-Enclosed Switchgear
- Unitized Substations
- Pad-mount Switchgear
- Capacitor Banks
- Primary Metering
- Specialty Equipment
- Termination Enclosures
- Low Voltage Switchboards
- Sectionalizing Enclosures

## **ELITE CAD DESIGNS**

RCR Associates is representing Elite Cad Designs. Elite CAD Designs is the industry leader in 3D Modeling, Coordinating, Detailing and Laser Scanning for Residential, Commercial and Industrial MEP systems. We draw mission-critical mechanical systems for constructability, taking into account maintenance requirements and system performance. We draw, model, and coordinate in high detail for prefabrication as standard practice. All of our work is delivered by our expert team, comprised of mechanical, electrical, and plumbing specialists.

### **Elite CAD Designs provides services to:**

- Owners & Developers
- Architects & Engineers
- Contractors.

### **Services include:**

- Drafting, modeling, detailing & coordination for constructability and pre-fabrication
- BIM & VDC coordination management building information modeling, virtual design & construction
- Reality Capture
- Digital Twin-Asset Management
- Detailed architectural or structural existing conditions drawings, models, virtual tours and point cloud laser scanning measurement data

## **VOLTA INNOVATIVE SOLUTIONS**

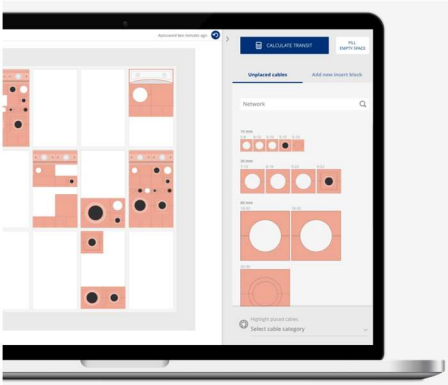

RCR Associates is representing Volta Innovative Solutions. Volta provides a full range of electrical prefabrication services to commercial, residential, and modular clients in New York and New Jersey. With their experience, knowledge, and resources, Volta can undertake prefabrication projects of any type or size. Electrical prefabrication services allow for custom solutions that add value to a building project.

### **Prefab solutions include:**

- **Rough-In:** Wall rough, ceiling rough, and apartment panels.
- **Deck:** Deck boxes, deck stub ups, and trees.
- **Temporary Power:** Temp string lights, socket lamps, receptacles with ROMEX, pigtailed with ROMEX, and temp panels.
- **One-Offs:** Receptacle stub ups, DGP fire alarm panels, MC whips, conduit racks, conduit bending, cut-out boxes, custom driver enclosures, and pre-wiring light fixtures.

## MCT BRATTBERG

### • RGB & RGG SYSTEM

Multi cable & pipe transits for buildings and land-based structures

### • E-RGB & E-RGG SYSTEM

EMC and G&B multi cable & pipe transits for buildings and land-based structures

### • RGB & RGG Ex

Ex rated multi cable & pipe transits for buildings and land-based structures

### • RGP SYSTEM

Circular multi cable & pipe transits for assembly sleeves, pipes, drilled or cast holes

### • E-RGP SYSTEM

Circular EMC and G&B multi cable & pipe transits for assembly in sleeves, pipes, drilled or cast holes

### • RGP Ex SYSTEM

Circular Ex rated multi cable & pipe transits for assembly in sleeves

### • RGPlan - Web based MCT Designer

Configure cable/pipe penetrations quick and easy with our web based manager service. Input your transit requirements and RGPlan automatically configures the seal, along with all necessary components, blank blocks, stayplates and compression systems.

MCT Brattberg endeavours to protect people and property through the design, development and manufacture of high-performance cable and pipe transits. These are used in high-risk maritime, offshore and land-based environments to minimize danger by preventing the spread of fire, water, gas, chemicals and other hazards substances.

Putting safety first lies at the heart of all MCT Brattberg business activities.
